

Providing Autism Awareness & Creating Possibilities

Dr. Ross Greene

Behavioral Challenges in Youth and using the Assessment of Lagging Skills and Unsolved Problems to Guide Your Work With Kids Collaboratively and Proactively

Friday, April 5, 2019
9:00 a.m.-3:00 p.m.
(Registration begins at 8:30 a.m.)

**Lake Ontario Event and
Conference Center**
26 E. 1st Street
Oswego, NY 13126

About the Conference with Dr. Ross Greene :

Say goodbye to conflict, screaming, time-outs, spankings, detentions, and suspensions. Say hello to solving problems collaboratively. If you're finding that all those consequences you've been imposing haven't made things any better with your child or student -- maybe things are actually worse -- it's time to start solving the problems that are causing that behavior. And if you solve those problems collaboratively and proactively, you'll simultaneously improve relationships, enhance communication, and teach a bunch of important skills.

Registration Fees:

- **\$10** Individuals on the Spectrum, Parents, Students and Family Members
- **\$50** Professionals

Buffet Lunch Provided

Ross W. Greene, PhD, is the author of the influential, best-selling books *The Explosive Child* and *Lost at School* and a fierce and articulate advocate for the compassionate understanding and treatment of behaviorally challenging kids and their caregivers. Drawing upon vast clinical and consultation experience and research in the neurosciences, his innovative, research-based *Collaborative & Proactive Solutions* (CPS) approach – which posits that challenging behavior is the result of lagging skills (rather than lagging motivation) and emphasizes solving problems collaboratively (rather than use of motivational procedures) – has been implemented in countless thousands of families and hundreds of general and special education schools, inpatient units, and residential and juvenile detention facilities.
